

IWT-A3

International Welding Technologies

Leading manufacturer of stud welding equipment and fasteners

Description:

The IWT-A3 Gun is designed for setup simplicity. A unique clutch design will keep lift constant regardless of the amount of plunge. Available in several solenoid options, the gun can be configured for use across the Fusion and Freedom platforms, or with another manufacturer's welding equipment.

Weld Range:

1/4"-1/2" depending on process

Welding Process:

Drawn Arc with ferrules

Welding Cables:

20ft of #2 weld cable (Fusion)

23ft of #4 weld cable (Freedom)

Gun Length:

7" long from back cap to chuck nut

Total Weight:

2lbs without cables

FEATURES

- MADE IN USA
- Easy to Use
- Light Weight
- Heavy Duty Cables
- Adjustable Leg Set
- New Comfort Grip
